13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

This well was to be recompleted to the Fruitland Coal, but was not due to casing damage. Plug and abandonment plans for this well will be submitted by January 1, 1994. GCU #273 is in the same proration unit which would have been allocated to this unuseable well. GCU #273 is part of a 20 well recompletion package scheduled to commence by June 1, 1993. Therefore GCU #41 will be plugged to accomodate GCU #273.
