(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

Farmington, New Mexico October 31, 1956

Well No. 1 is located 990 ft. from N line and 990 ft. from Ex line of sec. 27

N 1/4 of Section 27 T-28-N R-13-W NMFM
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Hildont San Juan New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 6025 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

On October 11, 1956, this well was spudded, and on October 12, 1956, 9-5/8" casing was landed at 505 feet and cemented with 300 sacks of cement. After waiting on cement for 24 hours, casing and water shut off were tested with 1200 pounds pressure for 30 minutes, with no drop in pressure. Drilling operations were resumed.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
