Conversion to Injection

Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Amoco Production Company wishes to cancel the P&A of this well approved by you April 3, 1997. Amoco's intentions are to either return the well to production or plug at a later date. This decision is pending the outcome of an evaluation of the wells to the south of the GCU #7. Should we decide to plug this well new procedures will be forwarded to the BLM for approval. Said procedures will include operations which will permanently plug the Pictured Cliffs, which is according to our records temporarily abandoned, as well as plugging the Basin Fruitland Coal horizon.

This is in response to your demand letter dated April 6, 1998 3162.3-4(7400).

If you have any questions please contact Gail Jefferson.
