(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

October 14, 1958

Well No. 26-1 is located 790 ft. from N line and 1850 ft. from W line of sec. 26
SW NE NW 28N 11W N.M.P.M.
 (1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Kuts-Fruitland **San Juan** **New Mexico**
 (Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 5576 ft. Gr.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It is felt that by re-fracing this well with 40,000# sand, 40,000 gallons water by Halliberton, that we have a good chance of increasing flow of gas into the line; although this well was fraced in the beginning, it never has made very much gas.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
