Subject: Deliverability Test  
Gallegos Canyon Unit No. 176  
Meter No. 73956

*C-25-28-13*

Mr. E. C. Arnold  
New Mexico Oil Conservation Commission  
1000 Rio Brazos Road  
Aztec, New Mexico 87410

Dear Sir:

The subject well was flow tested 1-23-72 to 1-31-72 and retested 9-27-72 to 10-5-72. The "Q" for the first test was 339 MCFD and 253 MCFD on the retest. During the retest the line pressure was higher and the well was partially logged off. In view of the poor retest obtained we request that the first test with the "Q" of 339 MCFD and "D" of 325 MCFD be accepted as the 1972 deliverability test.

Yours very truly,

L. O. Speer, Jr.  
Area Superintendent
