

OIL CONSERVATION COMMISSION
1000 RIO BRAZOS ROAD
AZTEC, NEW MEXICO

August 10, 1961

Mr. L. O. Spear
Pan American Petroleum Corp.
P.O. Box 480
Farmington, New Mexico

Re: Pan American #103 Gallegos
Canyon Unit, F-23-28N-13W
Cha Cha-Callup Oil Pool

Dear Mr. Spear:

The Notice of Intention to Drill subject well does not indicate that the Pictured Cliffs Formation will be covered with cement behind the casing. Since this well is within one mile of the West Ruiz-Pictured Cliffs Pool, that formation must be protected.

Yours very truly

A. R. Kendrick
Engineer, District #3

OIL CONSERVATION COMMISSION

1000 RIO BRAZOS ROAD
AZTEC, NEW MEXICO

Dear Sir:

Enclosed for you are two copies of a report on the oil resources of the State of New Mexico. The report was prepared by the Oil Conservation Commission and is being submitted to you for your information.

Very truly yours,
Oil Conservation Commission
Enclosure

Very truly yours,

The National Oil Conservation Council has been organized to coordinate the oil resources of the United States. The Council is composed of representatives from the oil producing states and the Federal Government. The Council's purpose is to conserve the oil resources of the United States and to promote the efficient use of oil.

Sincerely,
Oil Conservation Commission

Very truly yours,
Oil Conservation Commission

Very truly yours,

Very truly yours,
Oil Conservation Commission
