SANTA FE, NEW MEXICO

April 5, 1955

**Benson-Montin
315 1/2 West Main
Farmington, New Mexico**

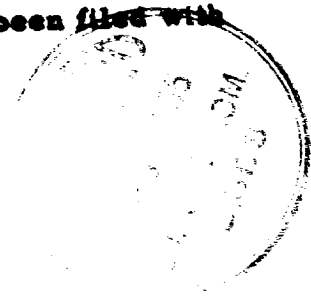

Gentlemen:

Your attention is directed to the general letter issued January 24, 1955, by the New Mexico Oil Conservation Commission outlining the procedure to be followed for prorating gas in the San Juan Basin. As pointed out in the letter, certain wells in the San Juan Basin could not be classified as standard gas proration units, and these wells were indicated as non-standard units on the March gas proration schedule for the San Juan Basin. Further, the letter points out that all non-standard gas proration units must have either administrative approval or a hearing by May 1, 1955, in order to remain on the gas proration schedule. In addition it was outlined in said letter that it would be necessary for all of the proper forms to be filed with the District Office at Aztec, New Mexico, before a well could receive its allowable.

Our records indicate that the following well operated by you is a non-standard unit for which we have received no application requesting approval of said non-standard unit and the necessary forms have not been filed with the Commission's District Office in Aztec, New Mexico.

West Kutz-Pickard Cliffs Gas Pool

Benson-Montin Riddle #1-A 15-28-13

SANTA FE, NEW MEXICO

OIL CONSERVATION COMMISSION

P. O. BOX 871

SANTA FE, NEW MEXICO

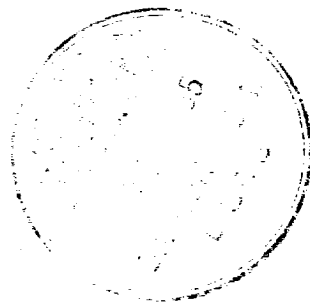

-2-

Enclosed you will find a memorandum outlining the filing requirements for approval of non-standard gas proration units. If application for approval of the above listed non-standard gas proration unit is not received and the necessary proper forms filed with our Astec Office, this well can receive no allowable and will remain off the proration schedule.

Very truly yours,

CHARLES M. RIEDER,
District Engineer

CMR/tr

OIL CONSERVATION COMMISSION

P. O. BOX 871

SANTA FE, NEW MEXICO

The Commission is composed of representatives of the oil and gas industry, the public, and the State of New Mexico. Its purpose is to conserve the oil and gas resources of the State and to promote the efficient use of these resources. The Commission is authorized to investigate and report on the conservation of oil and gas resources, to recommend measures for their conservation, and to administer the conservation program established by the State.

Very truly yours,

Chairman
Oil Conservation Commission
