

NEW MEXICO
OIL CONSERVATION COMMISSION
AZTEC, NEW MEXICO

February 23, 1955

E. F. Casinger
1315 Pacific
Dallas, Texas

Dear Mr. Casinger:

We have received your letter and plats regarding dedicated acreage in your #1 Phillips well and your proposed units for the two wells which you wish to drill.

On the basis of the plat as submitted we are assigning your #1 Phillips well the 160 acres consisting of the South half of Section 11. Order R-566-A requires, however that this unit be brought to a hearing before May 1, 1955 as it is a non-standard unit, not lying wholly within one quarter-section.

It will also require a special hearing for the unit consisting of the South half of Section 10 and the unit consisting of Lots 1,2,3,4 of Section 11 and lots 1 and 2 of Section 10. The last two named units will have to be approved after a hearing before the Commission before the wells are drilled. I would suggest that you combine all three units in one application and have it called for hearing as soon as possible. It is possible that you could have the hearing set for March if your application is in the Santa Fe office within the next week. If not it would probably be set for the April hearing.

Yours very truly

Emery C. Arnold
Supervisor, District #3
