13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

The subject well has been identified in recent wellbore utilization review to have possible utility as a Fruitland producer should the Fruitland spacing be downsized to 160 acre spacing. Amoco, therefore, request permission to preserve this wellbore for the present time until we are certain about our plans for further Fruitland development. Please advise if you need any additional information in order to maintain the wellbore as a shut-in well at the present time.
