	<input checked="" type="checkbox"/> Other LTRS 1/25/99 & 3/12/99	<input type="checkbox"/> Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Amoco Production Company respectfully request an extension to the plugging requirements for the subject well until the first quarter of 2000. This extension is necessary to allow time to evaluate recompletion into the Fruitland Coal. Such completion if deemed appropriate to recover reserves, will require an exception to the spacing rules for development into the Fruitland Coal formation. This extension request will allow for sufficient time to receive such exception from the NMOCD.

Additionally, the well was pressure tested in December 1997 and passed. Well bore is mechanically sound.

If you have any questions please contact Mary Corley at the telephone number listed above.

Thanks,
Mary Corley

THIS APPROVAL EXTENDS APR 01 2000

14. I hereby certify that the foregoing is true and correct.
