Federal Comm. Well No. 2-E  
Unit N, Section 11-T28N-R13W  
San Juan County, New Mexico  
Hardship Gas Well Classification  
Order No. R-7784

Dear Mr. LeMay:

As per Order No. R-7784, this is a request on behalf of the above-referred-to Operator, for extension of the Hardship Classification past May 31, 1990, for the above-referred-to well.

It is also requested that the extension be for one (1) year, or until May 31, 1991.

Due to the Hardship Classification, the well maintained good producing conditions since November 1984. It has not been necessary to swab or use any other method to remove water from the well.

The following is a tabulation of the production from the well:

<u>YEAR</u>	<u>MONTH</u>	<u>MONTHLY PRODUCTION MCF</u>	<u>MONTHLY WATER PRODUCTION BBLs</u>	<u>PRODUCING DAYS</u>	<u>DAILY AVERAGE MCF</u>
1989	April	783	18	30	26
	May	826	30	31	27
	June	647	6	30	22
	July	451	6	28	16
	August	1682	0	28	49
	September	613	0	30	20
	October	723	0	31	23
	November	736	0	30	25
	December	678	30	31	22
1990	January	714	0	31	23
	February	1725	0	28	62
	March	961	31	31	32

Page No. 2  
William J. LeMay

The producing rate did not exceed the 80 MCF per day approved maximum rate during the producing months.

According to the May 1990, Northwest Gas Proration Schedule, the proration unit in which the well is located was classified as marginal.

As presented during Case No. 8217, any extended shut in period for the well, will in all probability, affect the volume of gas that could ultimately be recovered from the reservoir. The affect would be due to produced water extrusion and damage of the reservoir.

Thank you for your consideration in granting an extension of the Hardship Classification for one (1) year.

Very truly yours,

A handwritten signature in dark ink, appearing to read "Ewell N. Walsh".
