Attention: William J. Fiant

Administrative Order NSL-1673

Gentlemen:

Reference is made to your application for a non-standard location for your Gallegos Canyon Unit Well No. 337 to be located 965 feet from the South line and 675 feet from the East line of Section 26, Township 28 North, Range 12 West, West Kutz Pictured Cliffs Pool, San Juan County, New Mexico.

By authority granted me under the provisions of Rule 104 F of the Division Rules and Regulations, the above described unorthodox location is hereby approved.

Sincerely,

  
JOE D. RAMEY  
Director

Re: Request for Unorthodox Well Location  
Gallegos Canyon Unit, San Juan County, New Mexico

Gentlemen:

Energy Reserves Group, Inc. respectfully request approval of the below referenced well location.

Gallegos Canyon Unit Well No. 337  
965' FSL 675' FEL  
Section 26, T28N-R12W  
San Juan County, New Mexico  
Federal Lease SF-078904

C-9

This proposed well is to be drilled to the Pictured Cliffs formation at a depth of 1,835'. Energy Reserves Group, Inc. is the sub operator of the Gallegos Canyon Unit which includes all formations above the base of the Pictured Cliffs Formation. Attached is a map delineating the Gallegos Canyon Unit boundry and the Pictured Cliffs participating area.

This location is on lands currently controlled by the Navajo Irrigation Project Authority. The stake was moved to its present location to minimize conflicts with the irrigated farm land. This site has been inspected by personnel from the N.A.P.I., and has been verbally approved. Any alternate location within the 160 acre spacing unit would involve conflicts with the anticipated farm usage of the lands.

We would appreciate your review of our request based upon the topographic conflicts.

Very truly yours,

ENERGY RESERVES GROUP, INC.
