Att: Mr. T. A. Dugan

Dear Mr. Dug

We have rec'd Gas Well Plats for your #22-12 San Juan Unit 29-6 well in Sect 12-29N-6W. You have shown 320 acres dedicated but I have checked Section 12 on our Government Survey plats and it shows the section to contain 436.37 acres. Due to patented land in the unit I am not able to determine how many acres is contained in the East Half of Section 12 however with there being 436.37 in Section 12 it would appear that 3 acres for the East Half is incorrect.

We are therefore returning your plats for a more accurate acreage determination.

Yours very truly

Emery C. Arnold  
Supervisor, District #3
