Farmington, New Mexico 87401

Re: Northwest Pipeline Corporation
San Juan 30-5 Unit #50
3-31-301-5W

Dear Mr. Maroncelli:

Our records indicate the above captioned well to have had its drilling operations suspended for more than 90 days.

Rule 202 C. requires that such wells be plugged and abandoned or that a temporary abandonment permit be secured.

Rule 202 B. requires that proof be supplied that the well bore is not leaking when applying for a temporary abandonment permit.

Please submit either an intention to plug and abandon or an application for a temporary abandonment permit.

If there are questions, please contact us.

Yours very truly,

Michael J. Conroy
District Supervisor
