17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

It is intended to dually complete this well by pulling the tubing and setting a drillable bridge plug above the Mesa Verde perforations. The casing will be tested to 3500 psi, and the Pictured Cliffs formation selectively perforated and sandwater fractured. Following clean out, dual tubing strings will be run and the producing formations isolated with a production packer.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
