13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

The subject well has been evaluated and at this time is deemed to be non-commercial. Upon approved, Phillips plans on temporarily abandoning the well pending recompleat to another zone or improvement in technology that may make the well commercial or useful. Temporarily abandoning the well will include placing a cast iron bridge plug at approximately 3,230', filing the wellbore with inhibited fluid and integrity testing the casing. Temporary abandonment will be completed prior to year end 2000.

THIS APPROVAL EXPIRES DEC 31 2000

14. I hereby certify that the foregoing is true and correct
