RE: REQUEST FOR ADMINISTRATIVE APPROVAL OF UNORTHODOX WELL LOCATION
SAN JUAN 30-5 UNIT #265 WELL
E/2 SECTION 10-30N-5W
RIO ARRIBA COUNTY, NEW MEXICO
PHILLIPS CONTRACT C40454

Ladies and Gentlemen:

Phillips Petroleum Company (Phillips) as Operator of the captioned well, respectfully requests administrative approval of an unorthodox location for this well.

Phillips proposes to drill the San Juan 30-5 Unit #265 well at a location of 1840' FNL & 2510' FEL of Section 10-30N-5W, Rio Arriba County, New Mexico. This well will be a Fruitland Coal in the Basin Fruitland Coal Pool with the E/2 of Section 10 designated as the drillblock.

This request for an unorthodox location is being made as a result of topographical concerns. An orthodox location would require extensive excavation into a steep grade on the side of a mesa for location construction and pipeline/road construction. Surface disturbance of this nature has been vigorously opposed by the BLM due to concerns over erosion and potential sedimentation impacts.

For your benefit in reviewing this request, we are providing the following:

1. Form C-102
2. A topographical plat (with orthodox location windows penciled in)
3. A nine section plat exhibiting offset operations.

This drillblock is located within the confines of the San Juan 30-5 Unit. The offset operators have been furnished with three (3) copies of this correspondence by certified mail and are requested to furnish your office with a Waiver of Objections, keep one copy for their records and return one copy to our office.

We thank you for your considerate attention to this request. Should you need additional information or clarification, please do not hesitate to contact the undersigned.

Very truly yours,

S. Scott Prather, CPL
