Gentlemen:

The July, 1965 Proration Schedule lists an allowable of 7,475 MCF for Gallegos Canyon Unit No. 189 for the month of June, while the Gas Supplement No. 9078 dated May 28, 1965 indicates an allowable of 7,975 MCF for this well.

Please advise which is the correct allowable so we may note our records accordingly.

Yours very truly,
