Re: Navajo Tract #20 Well #1
D31-29-17, San Juan County,
New Mexico, Pajarito Penn. "D"
7-8000' Pool

Dear Mr. Arnold:

Amerada has changed the tubing size in the Navajo Tract #20 Well #1 from 2-3/8" to 2-7/8" OD EUE 6.5# 8-RT J-55 R-2 Seamless, tubing setting to 5068' and bottom hole pump to 2-1/2" x 2" x 22'.

Production has increased, so we are submitting a new Gas-Oil Ratio Test, and are asking for an allowable revision.

Very truly yours,

D. F. Furse
