Re: Florance 23
SF-080247

Gentlemen:

Attached is Form C-104, Request For Gas Allowable, covering Florance 23 in Blanco Mesaverde Field. This well was recently repaired by cementing old shot hole, re-drilling to TD of 5355', running 4-1/2 casing from surface to TD, perforating and sand frac the Mesaverde section.

The repair was completed October 15, 1964, and is being reconnected this date by Southern Union Gathering Company for the first day of conditioning period for new deliverability test.

Yours very truly,

TENNECO OIL COMPANY
