Dear Sir:

The Notice of Intention to Drill, form C-101, was approved for the captioned well "subject to approval of the non-standard location". Our attorney advises that no application has been presented for approval of the non-standard location as of this date.

The stock tank for the captioned well has not had a fire wall constructed around it as agreed on March 9, 1960. Such operation is in violation of our safety regulations.

Please be advised that all operations must be in compliance with all rules and regulations on or before May 5, 1960, to prevent legal action being initiated.

If we can be of assistance please contact us.

Yours very truly
