*Re: Non-standard location, Aztec Oil  
and Gas Company #6 Hagoood "C"  
D-34-29N-13W; 1035/N; 1115/W*

*Dear Sir:*

*We received an informal request to inspect subject location.*

*They have a Dakota well located 990/N and 990/W in this section.  
The proposed well is projected to the Gallup formation.*

*I have visited the location and find that a standard location would  
be very expensive to build because of topographical conditions.  
Therefore I recommend approval of the subject location upon proper  
application by the operator.*

*Yours very truly*

*A. R. Kendrick  
Engineer, District #3*

Re: Proposed location of well O-1  
and Gas Company #6 "Hood" "C"  
D-24-23W-13N; 1032W; 1112W

Dear Sir:

I have received an informal request to inspect subject location.  
They have a photo well located 990W and 990W in this section.  
The proposed well is projected to the Gulf formation.  
I have visited the location and find that a standard location would  
be very expensive to build because of topographical conditions.  
Therefore I recommend approval of the subject location upon proper  
application by the operator.

Yours very truly

A. R. Kenrick  
Engineer, District #1
