Instructions

General: This form is designed for submitting proposals to perform certain well operations, as indicated, on all types of lands and leases for appropriate action by either a Federal or a State agency, or both, pursuant to applicable Federal and/or State laws and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office.

Item 1: If the proposal is to redrill to the same reservoir at a different subsurface location or to a new reservoir, use this form with appropriate notations. Consult applicable State or Federal regulations concerning subsequent work proposals or reports on the well.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 14: Needed only when location of well cannot readily be found by road from the land or lease description. A plat, or plats, separate or on this reverse side, showing the roads to, and the surveyed location of, the well, and any other required information, should be furnished when required by Federal or State agency offices.

Items 15 and 18: If well is to be, or has been directionally drilled, give distances for subsurface location of hole in any present or objective production zone.

Item 22: Consult applicable Federal or State regulations, or appropriate officials, concerning approval of the proposal before operations are started.

161.02

1. Outline the acreage dedicated to the subject well by a closed polygonal line on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify it by listing the location, lease number, interest and royalty.
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners be conclusively dated by a communication, certification, or agreement, etc.

X Yes ☐ No ☐ If answer is "No," type of communication

Communication

If answer is "No," list the names and exact descriptions of all persons who have been consulted. Use reverse side of this form if necessary.

No answer will be assigned to the well if all leases have been surveyed and approved by the Commission. The department will then issue a standard unit calculation for each lease. See the reverse side of this form for details.
