Re: Application for Permit to Drill:  
Florance 45A  
San Juan County, New Mexico

Gentlemen:

Attached are the original and five copies each of the Application for Permit to Drill, Surveyor's Plat, Vicinity Map, Location Access Map, 12 Point Surface Use Plan, 7 Point Well Control Plan with schematic diagram of surface control equipment and a restoration plan for the above captioned well.

We originally staked this well in Unit P and filed an NID on New Mexico State forms. We have cancelled that NID because of the new location falling on Federal land.

We are planning to commence drilling operations as soon as permits are approved.

Yours very truly,

TENNECO OIL COMPANY
