Dear Horace:

Returned herewith is the Notice of Intention to Drill the subject well for the following reasons:

1. No blowout protection is indicated,
2. No statement of gas dedication,
3. Acreage has not been outlined on form C-102,
4. Certificate on form C-102 has not been completed.

If it is your intention to commingle the production down-hole the approval must be obtained prior to producing the well. Also, please show both zones and pools on form C-102.

The footage location is non-standard and approval must be obtained prior to producing.

The existing well on the tract is being operated in the name of El PamCo, Inc.. All wells on the same drill tract completed in the same zone must be operated in the same name.

If there are questions, please contact us.

Yours very truly,

A. R. Kendrick
