Dear Don:

The footage location of the subject well does not comply with the Blanco-Mesaverde pool rules.

It also differs from the non-standard location order, NSL-830, written March 28, 1977, for a well to be drilled 1975' from the North line and 1745' from the West line of Section 19.

Please file an application to have NSL-830 amended.

Yours very truly,

A. R. Kendrick
Supervisor, District #3
