Re: Extension of Permission to Vent Gas, Horseshoe #1,
Unit K-Sec 2-T 29N-R 15W, San Juan County, New Mexico

Dear Ken,

Southern Union Exploration (SX) requests permission to continue venting casinghead gas from the Horseshoe #1, Lease No. NM-18468. A gas contract has been negotiated but pipeline connection has not been resolved.

This well began production in November of 1983. Reentry in August of 1984 slightly increased production but gas will still not exceed 30 mcf/gpd.

Should anything further be required, please let me know.

Sincerely,

Katherine F. Folk
Geologist
