Re: Request for Unorthodox Well Location
Gallegos Canyon Unit
San Juan County, New Mexico

Gentlemen:

Energy Reserves Group, Inc. respectfully requests approval of the below referenced well location.

Gallegos Canyon Unit, Well No. 330
370' FNL 210' FEL
Section 24, T29N-R13W
San Juan County, New Mexico
Federal Lease SF-077966

This proposed well is to be drilled to the Pictured Cliffs Formation at a depth of 1,410'. Energy Reserves Group, Inc. is the sub-operator of the Gallegos Canyon Unit which includes all formations above the base of the Pictured Cliffs Formation. Attached is a map delineating the boundary of the Gallegos Canyon Unit and the Pictured Cliffs participating area.

This location is on lands presently owned by Amoco Production Company. They have a gas sales facility located east of the proposed site. There is industrial real estate development to the west and south where the well would normally be drilled.

We would appreciate your review of our request based upon the existing well placement and the other considerations mentioned above.

Very truly yours,

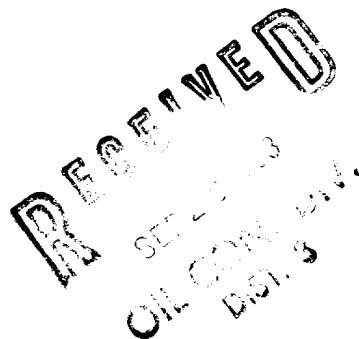

ENERGY RESERVES GROUP, INC.
