(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

The subject well was originally permitted with an 8 3/4" surface hole to run 7", 20# casing set @ 120' with 35 sx cement. BHP received verbal approval from Errol Beacher, BLM - Farmington, on 4/28/88 to change this design to a 9 7/8" surface hole, which would require 60 sx cement to run the same casing string.
