Gentlemen:

A recent field inspection disclosed that the surface casing is not cemented properly in your #1 Troxell well in Section 15, T 29N, R 11W.

Rule 107 of the "Rules and Regulations" of the New Mexico Oil Conservation Commission specify the casing and cementing requirements.

Forms C-104 and C-110 will not be approved until the surface casing has been properly cemented in accordance with the above mentioned rule. A casing test will be submitted on form C-103 in accordance with Rule 1106 of the "Rules and Regulations".

Yours very truly,

A. R. Kendrick
Engineer District #3
