January 14, 1963

Well No. Rosa 40-11 is located 1750 ft. from N line and 990 ft. from W line of sec. 11
XXXX
NW/4 Section 11 31 North 5 West NNPM
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Rosa Unit Rio Arriba County New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 6813 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Due to extreme weather conditions, constant freeze-ups on our 2" gas line and freeze-ups at the well head both at the separator and dehydrator, we request permission to cancel this test until weather conditions permit us to obtain a good and valid test.

It is our thinking that should we have a meter run at the well head, we would obtain a more favorable accurate test.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company Sher-Alan Oil Company
Address 1602 Denver U. S. National Center
Denver, Colorado
