P. O. BOX 27 • FARMINGTON, NEW MEXICO 87401 • PHONE 325-7685

U. S. Department of the Interior U. S. Geological Survey P. O. Box 1809 Durango, Colorado 31301 Dear Sirs: Enclosed herewith are copies of reports due and past due on dry hole recently drilled in NW Section 2h, T.31N., R.1W., N.M.P.M., Rio Arriba County, New Mexico, being Monero Dome No. 1. Since this is my Hirst well drilled under Federal Regulations, please review and advise if there is other data desired on this well. I am waiting for seeding instructions from Harold Te Cube, Realty Officer, BIA, Jicarilla Apache Agency. I desire to hold all material in confidence as a Tight Hole until November 5, 1973. This is in keeping with arrangements made with the New Mexico Bureau of Mines on Intelf sampling of the coal in the lower Mesa Verde Formation. I also advise that my latest check indicates the surface elevation of the well to be 81h6 instead of 81h2 as previously reported. Enclosed herewith are the following: 1. 6 copies, Intent to Abandon 2. 6 copies, Motice of Abandonment Size 3. 6 copies, Final Report and Log 4. 6 copies, Water Analysis 6. 2 copies each, Induction Electrolog and Gamma Densilog.
