OIL CON. DIV.

DIST. 3

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Drilled in 1981, this well has not been completed at this time, pending evaluation of the success of offsetting completions.

Mitchell Energy Corporation proposes to run a CBL-GR-OCL from PBTD to above TOC to evaluate the cement bond and determine the feasibility of leaving this well in its present condition until completion is attempted in 1984.

Subsurface Safety Valve: Manu. and Type _____ Set @ _____ Ft.
