13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Phillips' plans are to temporarily abandon subject well in anticipation of lower line pressures in the near future. We will be temporarily abandoning this well by setting a CIBP within 100' of the existing perforations (3390' - 3594'). All of our rigs are currently busy, but work is planned to be completed before December 1, 1998.
