13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The subject Dakota well is currently shut-in. The well is scheduled to be recompleted to the Mesaverde prior to the winter closure season. We will evaluate the Dakota for potential prior to recompleting to the Mesaverde, and depending on what is found, the Dakota zone will either be returned to production and downhole commingled with the Mesaverde or abandoned prior to recompleting the well to the Mesaverde.

A Notice of Intent will be submitted detailing how we plan on returning this well to production before any work begins.
