Mr. William J. Stafford  
Great American Oil Company  
107 Washington SE  
Albuquerque, New Mexico

Re: Great American Oil Co.  
#3 Sargent, M-32-1N-2E, M &  
B Survey, Rio Arriba Co, N.M.

Dear Mr. Stafford:

The casing must be cemented in subject well if the well is to be completed as a producible well.

Rule 107 explains the cementing requirements.

The attached Form C-103 indicates that the casing was set on a shoulder without cement; therefore, we cannot approve it.

Yours very truly

A. R. Kendrick  
Engineer, District #3
