Mitchell Energy Corporation  
3900 One Shell Plaza  
Houston, Texas 77002

Gentlemen:

Mitchell Energy Corporation is the operator of the No. 1 Rosa Unit well, located in the NW $\frac{1}{4}$  sec. 10, T. 31 N., R. 5 W., Rio Arriba County, New Mexico, on Federal oil and gas lease Santa Fe 078763. Said well was completed January 10, 1966, and apparently has never been produced commercially.

Temporary abandonment of any well under jurisdiction of the U.S. Geological Survey must now receive formal approval. Such approval may be granted, for a period not to exceed one year, provided reasons for temporary abandonment are deemed adequate.

Please submit an original and four copies of Sundry Notice (form 9-331) requesting temporary abandonment for the above well. This request should set forth the present status, date of last production, reason for requesting temporary abandonment, and future plans for the well including approximate dates of planned workovers or plugging operations.

Sincerely yours,

-Orig. Signed -

Jerry W. Long  
District Engineer

1. The first is the fact that the majority of the population is not yet literate. This is a serious obstacle to the development of the country. The government has taken steps to improve the literacy rate, but more needs to be done. The second is the fact that the country is still a developing nation. It needs to attract foreign investment and develop its infrastructure. The third is the fact that the country is still a developing nation. It needs to attract foreign investment and develop its infrastructure. The fourth is the fact that the country is still a developing nation. It needs to attract foreign investment and develop its infrastructure. The fifth is the fact that the country is still a developing nation. It needs to attract foreign investment and develop its infrastructure. The sixth is the fact that the country is still a developing nation. It needs to attract foreign investment and develop its infrastructure. The seventh is the fact that the country is still a developing nation. It needs to attract foreign investment and develop its infrastructure. The eighth is the fact that the country is still a developing nation. It needs to attract foreign investment and develop its infrastructure. The ninth is the fact that the country is still a developing nation. It needs to attract foreign investment and develop its infrastructure. The tenth is the fact that the country is still a developing nation. It needs to attract foreign investment and develop its infrastructure.

The diagram illustrates the experimental design with four stages labeled a, b, c, and d. Stage 'a' shows a car with a driver. Stage 'b' shows a car with a driver and a passenger. Stage 'c' shows a car with a driver and a passenger. Stage 'd' shows a car with a driver and a passenger. The sequence is labeled with 'a', 'b', 'c', and 'd'.

Figure 1. The effect of the concentration of the *Agrobacterium* suspension on the transformation efficiency of *Agrobacterium* strains. The *Agrobacterium* strains were grown in the YEA medium for 24 h at 28°C. The cell concentration of the strains was adjusted to 1.0 × 10<sup>8</sup> cells/ml. The cell suspension was mixed with the plant tissue and the transformation efficiency was determined. The results were expressed as the mean ± SD of three independent experiments.
