Dear Norman:

30-045-09137

As you will recall, temporary abandonment on the referenced wells expired on or about March 22, 1987. The Swab Tests your company performed in early 1987 were apparently unsuccessful as we have received no further reports. The wells have been neglected after testing was completed.

In order to prevent waste and protect fresh water, you are hereby directed to initiate plugging activity within 90 days of this date. Failure to comply will result in a case being called for Norman L. Gilbreath, United States Fidelity & Guaranty Surety and all other interested parties to appear and show cause why these wells should not be plugged and abandoned in accordance with a Division approved plugging program.

Yours truly,

Charles Gholson  
Deputy Oil & Gas Inspector
