Conservation Commission

Aztec, New Mexico

Dear Mr. Arnold:

Enclosed you will find two (2) copies of the Notice of Intention to Drill on our 1-28 Northwest Farmington Well. We are re-submitting these notices and applying to the Commission for an Administrative Order on the well's non-standard location.

I have spoken to Mr. Porter of the Commission and also to Southern Union Gas Company, the offset owner. Southern Union has agreed to waive the 790' clause and is informing the Commission of that waiver by telegram. We will expect to hear from the Commission's office in Santa Fe later today in regard to verbal approval of the location.

Thank you very much for your cooperation and notification to us of our error in this location.

Yours very truly,

COMPASS EXPLORATION, INC.
