| e elevation of the | DETAI | LS OF WORK | of proposed easing | ıga; indicate mudd | ing Jobe, cement- |
| e elevation of the | DETAI | LS OF WORK | of proposed easing d work) | igs; indicate mudd | ing jobe, cement- |
| e elevation of the | DETAI | LS OF WORK | of proposed cash ad work) | nga; indicata mudd | ing jobe, cement- |
| e elevation of the state to names of and espected depths | DETAI to objective sands; show size ing points, and all of | LS OF WORK se, weights, and lengths ther important propose in the fello | of proposed casing work) | ngs; indicate mudd | ing Jobs, coment- |
| e elevation of the simulation names of and espected depths | DETAI | LS OF WORK se, weights, and lengths ther important propose in the fello | of proposed easing work) wing mount | ngs; indicate mudd | ing jobe, cement- |
| te names of and expected depths | DETAI to objective sands; show size ing points, and all of the conditions of the co | LS OF WORK es, weights, and lengths ther important propose in the fello | uing manne Looks of | r consults | ing jobe, cement- |
| to names of and espected depths | DETAI to objective sands; show size ing points, and all of the conditions of the co | LS OF WORK se, weights, and lengths ther important propose in the fello | uing manne Looks of | ngs; indicate mudd | ing Jobs, coment- |
| to names of and expected depths | DETAI to objective sands; show size ing points, and all of the conditions of the co | LS OF WORK es, weights, and lengths ther important propose in the fello | uing manne Looks of | r consults | ing jobs, coment- |
| the names of and expected depths this well was plugge the coment plug from this set of steel p | DETAI to objective sands; show size ing points, and all of the conditions of the co | LS OF WORK es, weights, and lengths ther important propose in the fello | uing manne Looks of | r consults | ing jobs, coment- |
| the names of and expected depths this well was plugge the coment plug from the first of cheel p | DETAI to objective sands; show size ing points, and all of the case abandones. (TP) 200° to constant 4° abandones. | LS OF WORK es, weights, and lengths ther important propose in the fello | uing manne Looks of | r consults | FCFIVED |
| the names of and expected depths this well was plugge the coment plug from the for d' cheel p | DETAI to objective sands; show size ing points, and all of the case abandones. (TP) 200° to constant 4° abandones. | LS OF WORK es, weights, and lengths ther important propose in the fello | uing manne Looks of | 7.1 1 | ECEIVED |
| the names of and expected depths this well was plugge the coment plug from this set of steel p | DETAI to objective sands; show size ing points, and all of the case abandones. (TP) 200° to constant 4° abandones. | LS OF WORK es, weights, and lengths ther important propose in the fello | uing manne Looks of | 7.1 1 | ECEIVED |
| the names of and expected depths this well was plugge the coment plug from the first of cheel p | DETAI to objective sands; show size ing points, and all of the case abandones. (TP) 200° to constant 4° abandones. | LS OF WORK es, weights, and lengths ther important propose in the fello | uing manne Looks of | F | ECEIVED |
| to names of and expected depths this well use plugge an concest plug from the lot of steel p continue of well of | DETAI to objective sands; show size ing points, and all of one absorbered (pp) 200° to end, and all of the sandard the section. | LS OF WORK so, weights, and lengths ther important propose in the fello erfece with 4 | uing menne Leoniu od vith i | P. C. | ECEIVED OCT 1 7 1962 IL CON. CO |
| the names of and expected depths this well was plugge the coment plug from this set of steel p | DETAI to objective sands; show size ing points, and all of one absorbered (pp) 200° to end, and all of the sandard the section. | LS OF WORK so, weights, and lengths ther important propose in the fello erfece with 4 | uing menne Leoniu od vith i | P. C. | ECEIVED OCT 1 7 1962 IL CON. CO |
| to names of and expected depths his well was plugge has coment plug from leastion of well of | DETAI to objective sands; show size ing points, and all of one absorbered (pp) 200° to end, and all of the sandard the section. | LS OF WORK so, weights, and lengths ther important propose in the fello erfece with 4 | uing menne Leoniu od vith i | P. C. | ECEIVED OCT 1 7 1962 IL CON. CO |
| te names of and expected depths his wall was plugge an compact plug from the section of wall of leaned and leveled I understand that this plan of wall | DETAI to objective sands; show size ing points, and all of one absorbered (pp) 200° to end, and all of the sandard the section. | LS OF WORK so, weights, and lengths ther important propose in the fello erfece with 4 | uing menne Leoniu od vith i | P. C. | ECEIVED OCT 1 7 1962 IL CON. CO |
| the names of and expected depths his well was plugged an economic plug from the stand of well of learned and leveled in the learned and | DETAI to objective sands; show size ing points, and all of one absorbered (pp) 200° to end, and all of the sandard the section. | LS OF WORK so, weights, and lengths ther important propose in the fello erfece with 4 | uing menne Leoniu od vith i | P. C. | ECEIVED OCT 1 7 1962 IL CON. CO |
| to names of and expected depths his well was plugge has coment plug from leastion of well of | DETAI to objective sands; show size ing points, and all of the dead absorbered. (pp) 200° to considered the second of the seco | LS OF WORK so, weights, and lengths ther important propose in the fello erfece with 4 | uing menne Leoniu od vith i | P. C. | ECEIVED OCT 1 7 1962 IL CON. CO |
