Re: Monsanto (Lion) No. 1 State H  
Horseshoe Gallup Unit  
San Juan County, New Mexico

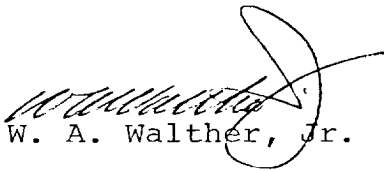

Dear Mr. Carr:

We have reviewed your letter of July 22, 1980 regarding the movement of a power line over the above captioned well in the Horseshoe Gallup Unit, San Juan County, New Mexico.

We have investigated this matter, and find that both primary and secondary phases of the electrical power line pass directly over the Monsanto (Lion) No. 1 State H Well. We have contacted the power company and they advise that it would cost in the neighborhood of \$6,500 for material and labor to move this line. The movement of this line would also necessitate the shutting in of ten wells for two or three days with a loss of approximately 45 BOPD.

It is suggested that you relay this information on to the Oil Conservation Division of the State of New Mexico in an effort to delay the plugging of this well until the Horseshoe Gallup Unit is abandoned.

Yours very truly,

  
W. A. Walther, Jr.

WAW/skl
