DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Set approximately 300' 10-3/4" 32.75# surface casing and circulate cement.

Set approximately 800' 7" 23# and 4000' 7" 20# production string and cement with 200 or more sacks of cement if necessary.

Drill to total depth of approximately 5800' to test the Mesaverde.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
