Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

In reference to your letter dated 1/26/93, Merrion Oil & Gas is in the process of trying to sell or give away the subject well to avoid plugging it out. While we feel there is significant potential in the Fruitland Coal, the cost and risk are more than Merrion can bear. At the same time, the potential may out way the risks for some of the offset operators. ~~Therefore, we request your approval to give us six months (6) to try to consummate a deal before forcing us to plug the well.~~

14. I hereby certify that the foregoing is true and correct

Signed

George F. Sharpe
