Oil Conservation Division Rule 1115 requires that your Operator's Monthly Report (Form C-115) include reporting for each non-plugged well completion that you operate. Our records indicate that your C-115 for March, 1998, did not include reporting for all non-plugged well completions. A list of the unreported well completions is attached.

It is possible that these well completions are plugged or owned by another operator. Please review your files and let me know of any discrepancies you find. I can be reached at 505/827-7151. If you concur that the well completions on the list are in the correct status and operated by your organization, please submit an amended C-115.

Rule 1115 requires that you respond to this notice within 30 days.
