Attention: Fran Perrin

Amended Administrative Order NSL-3319

Dear Ms. Perrin:

Reference is made to your application dated February 24, 1994 requesting the amendment of Division Administrative Order NSL-3319, dated October 12, 1993, which authorized the unorthodox location of the Carracas Unit "PC" 34-B Well No. 6 to be drilled 1570 feet from the North line and 1950 feet from the West line (Unit F) of Section 34, Township 32 North, Range 4 West, NMPM, to test the Pictured Cliffs formation, Rio Arriba County, New Mexico.

It is our understanding said well is to be drilled "1635 feet from the North line and 2055 feet from the West line (Unit F) of said Section 34," and that this change was necessitated by an archeological finding.

By the authority granted me under the provisions of General Rule 104.F(1) Division Administrative Order NSL-3319 shall be amended to reflect said well location change. All other provisions shall remain in full force and effect until further notice.

Sincerely,

William J. LeMay
Director

Administrative Order NSL-3319

Dear Ms. Perrin:

Reference is made to your application dated September 15, 1993 for a non-standard gas well location for the proposed Carracas Unit - PC 34-B Well No. 6 to be drilled 1570 feet from the North line and 1950 feet from the West line (Unit F) of Section 34, Township 32 North, Range 4 West, NMPM, Rio Arriba County, New Mexico, to test the Pictured Cliffs formation. The NW/4 of said Section 34 shall be dedicated to the well forming a standard 160-acre gas spacing and proration unit.

By the authority granted me under the provisions of General Rule 104.F(1) the above-described unorthodox gas well location is hereby approved.

Sincerely,

William J. LeMay
Director

Gentlemen:

Nassau Resources, Inc., hereby requests administrative approval of an unorthodox location for the captioned well due to Forest Service requirements for development regarding wildlife concerns, especially the need of a tree screen which protects a heavily used migration route.

Amoco Production Company, the only offsetting operator, as shown on the attached lease plat, is also an interest owner in NM-59696 and has been notified of this application by certified mail. McHugh Companies is an operating affiliate with Nassau Resources, Inc.

Also attached are copies of the surveyor's plat, topographic map and production map.

Please contact us if anything further is required to complete this application.

Respectfully submitted,

Fran Perrin
