*Re: Allowable Status, Sadie
West #1, SW 21-31N-12W*

Dear Charlie:

Since receiving your letter I have reviewed the allowable status of the above well. As you know, the May schedule failed to print any information regarding this well; however I have carried the status through from the April schedule to the June schedule and the well has received an allowable for the months of April, May, and June. Evidently the machine did calculate a May current allowable but it did not get entered into the well status until the June schedule was printed.

In order that you may check the allowable figures I will give them to you. The March allowable was 5147, April 4085, May 3633, and June 3529. The ending net allowable at the end of May was 6562 and this figure properly reflects all allowable assigned through May.

If you have any further questions regarding the matter, please contact us.

Yours very truly

*Emery C. Arnold
Supervisor, District #3*

1. *Chlorophyll a* and *Chlorophyll b* were determined by the method of Arar and Collins (1971).

[illegible]

1. The first group of people who are interested in the study of the history of the United States are the people who are interested in the history of the United States. This group of people is interested in the history of the United States because they want to know more about the country they live in. They want to know about the people who lived in the United States and about the events that happened in the United States. They want to know about the things that have made the United States what it is today.

3. 2000-2001: While the number of cases of violence against women has decreased, the number of cases of violence against children has increased.
