DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

This water injection well is presently completed only to the lower casing. To produce also to inject water into the lower casing by installing a packer at 21,000' and circulating with water containing 20,000 lb of 20/40 mesh sand.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company The Atlantic Refining Co.
