Well No. #1 Ute is located 1980 ft. from [N] line and 2050 ft. from [E] line of sec. 22

NE/4 Sec. 22
(1/4 Sec. and Sec. No.)31 North
(Twp.)14 West
(Range)NMPM
(Meridian)Verde-Gallup
(Field)San Juan
(County or Subdivision)New Mexico
(State or Territory)The elevation of the ~~surface~~ ^{ground level} above sea level is 5737 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Preparing to plug and abandon above described well because production has reached a non-commercial stage. We intend to cut the 5-1/2" pipe where we can get above the cement. We will fill up the open hole with cement; run 100' plug on the stub wherever the pipe is cut; run a 100' plug across the Mancos, if it becomes exposed (top of which is 1650'); run a cement plug at the base of the surface pipe; and a plug at the top of the surface pipe with a dry-hole marker.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
