Dear Sir:

Navajo "B" #2 is plotted as 42.62 acres.

It has just been brought to our attention that the allowable for the month of June for Navajo "B" #2 is 54 barrels. We believe the allowable for a well on 42.62 acres should be 59 barrels. If we are correct, would you please make an adjustment. Can we be given credit for the discrepancy in the months of March, April and May?

Sincerely,

THE ATLANTIC REFINING CO.
