NOTICE OF INTENTION TO ABANDON WELL			

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

Well No. ~~San Juan~~ **San Juan** is located **1900** ft. from **N** line and **3000** ft. from **W** line of **Sec. 10**
San Juan section **10** (1/4 Sec. and Sec. No.) **1900** (Twp.) **1000** (Range) **1000** (Meridian)
San Juan (Field) **San Juan** (County or Subdivision) **San Juan** (State or Territory)

The elevation of the ~~corner~~ **ground level** above sea level is **3000** ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It is proposed to drill with rotary tools to a depth of 1000 feet, and 2 1/2" casing and cement to surface with 100 ccs. Then to drill with rotary to the top of the San Juan Gelling producing zone, estimated at 1000, run electric log and run 2 1/2" casing with a 2-stage 27 cementing tool. It is proposed to cement the first stage with 50 ccs and to cement the second stage with 50 ccs to be followed by a temperature survey in order to determine cement fill-up. It is proposed to place the 27 tool approximately 100 feet below the base of the San Juan formation. After waiting a minimum of 24 hours on cement, it is proposed to drill in with rotary using oil as drilling fluid and then run through casing with 40,000 gallons of water and then run tubing and place on pump until daily rate of production is established after recovering from oil. The 2 1/2" 27 of the casing, containing 40 gallons more or less, is dedicated to the well site. Estimated total depth, 2,000 feet.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

NEW MEXICO OIL CONSERVATION COMMISSION
Well Location and Acreage Dedication Plat

Section A.

Date June 22, 1959

Operator PUBCO PETROLEUM CO. Lease UTE MOUNTAIN
Well No. 19-6 Unit Letter 7 Section 19 Township 31 N Range 14 W NMPM
Located 1980 Feet From north Line, 2030 Feet From west Line
County San Juan G. L. Elevation 5638 Dedicated Acreage 40 Acres
Name of Producing Formation Gallego Pool North-Gallego

1. Is the Operator the only owner* in the dedicated acreage outlined on the plat below?
Yes 2 No .
2. If the answer to question one is "no," have the interests of all the owners been consolidated by communitization agreement or otherwise? Yes No . If answer is "yes," Type of Consolidation
3. If the answer to question two is "no," list all the owners and their respective interests below:

Owner

Land Description

Section B

This is to certify that the information in Section A above is true and complete to the best of my knowledge and belief.

PUBCO PETROLEUM CORPORATION

(Operator)

James E. Holzman
(Representative)
James E. Holzman, Dist. Geol.
Post Office Box 1440

Address

Albuquerque, New Mexico

This is to certify that the well location shown on the plat in Section B was plotted from field notes of actual surveys made by me or under my supervision and that the same is true and correct to the best of my knowledge and belief.
